

2007 AV Tech Day

Your source for transmission SOLUTIONS!

Designing a new facility? Planning an installation? Here is a chance to meet with Belden the leader in signal transmission SOLUTIONS and Steve Lampen, Belden's Multimedia Technology Manager and most requested speaker. You are invited to join us for a **FREE** day of seminars covering technological changes in cable and connectivity.

100 Things You Forgot - A simple list of 100 forgotten facts about audio and video wire and cable, connectors, tools, ties and related items that can help you avoid needless problems and expense!

10Gigabit Cable for Audio and Video Applications - The hottest new thing in data is 10gig, 10GbaseT, and it will be sweeping into audio, video and broadcast applications soon. We'll show you what it is, how it works, and why previous cable designs don't work. Don't forget the connectors, patch panels, and patch cords they are critical and included in this presentation. We'll start with the history of Ethernet® and twisted pairs for data and take you into today's digital world.

SEMINAR OVERVIEW

SEMINAR SCHEDULE

Agenda

8:00 a.m. – 9:00 a.m.	Registration Check-in
